### LANGUAGES

- Khmer (Native)
- English (Exe)

### PROFILE

I am a full-stack software developer with more than 2.5 years of experience building efficient and scalable web applications. I specialize in PHP, JavaScript, Laravel, CodeIgniter, and Java Spring Boot, with hands-on experience in MySQL and PostgreSQL. My work has mainly focused on school management systems, HR solutions such as employee management, leave tracking, and payroll, as well as SEO websites. I am passionate about developing clean, reliable, and user-friendly systems that improve workflows and deliver real value.

### WORK EXPERIENCE

- |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |             |
